Please note this is not a complete list of PDQ Industries LLC products and reflects completely assembled items. These certifications are a guide to overall product lines only and do not reflect the country of origin of individual spare parts or components.

Each product series is comprised of many individually configured SKU's. It is possible that some SKU's may require further vetting for compliance validation. Should you have questions or need additional countries of origin for products not listed herein, please contact your PDQ Industries LLC representative. Additionally, for individual SKU compliance statements, please contact PDQ Industries LLC.

This letter is valid through 12/31/26 unless otherwise notified in writing by PDQ Industries LLC.
