

5300 SERIES SLIM LINE

Architectural Commercial

Door Control

SUGGESTED ARCHITECTURAL SPECIFICATIONS

All door closers shall be narrow projection American Eagle 5300 Series with full rack and pinion construction, heavy duty cast aluminum closer body, stamped flat style arm assembly and full cover. Hydraulic control shall be through separate hex-key non-critical sweep, latch and backcheck adjustment. Optional delayed action to be effective from maximum opening to approximately 70 degrees. Closers shall be non-handed, suitable for regular, top jamb and parallel arm applications with fasteners

for wood or metal doors and frames. Sex nuts and bolts shall be furnished standard. Spring adjustment to be provided throughout a range of sizes 1-6 and capable of meeting barrier free opening force requirements. All products carry a 25-year manufacturer's limited warranty. Closers shall be listed by U.L./U.L.C., comply with UL 10C and UBC 7-2 (1997) for positive pressure and certified to ANSI A156.4 Grade 1.
