SPRING CUSHION STOP

630 Satin
Stainless Steel

613 Oil
Rubbed Bronze

605 Bright
Brass

PDQ's SCS Series Spring Cushion Stop helps reduce wear and tear on the opening. As the door begins moving through backcheck to its maximum opening angle, the stop acts as a shock absorber, dampening the impact forces.

FEATURES

- SCS is an add-on kit that can be included as an option on DS/DSHO arms.
- Great for retrofits. The SCS can be installed on existing DS/DSHO arm applications using the existing threaded hole for the bumper stop and one of the mounting screw holes.
- Two spring sizes available to accommodate differing door widths, sized to provide the most effective cushioning.

SPECIFICATIONS

HANDING:	• Field Reversible
DOOR SIZES:	• SCS-1 for 3'0" X 8'0" doors • SCS-2 for 4'0" X 8'0" doors
