The Evolutions product digest provides an overview of PDQ’s broad offering of architectural door hardware and access management solutions. Please consult customer service, our price list and individual product brochures for more complete information regarding each product series.

Customer Support

Customer Service
Our Customer Service team is available to answer questions or provide any assistance you may need. You can reach them at 800-441-9692 or help@pdqlocks.com. Monday through Friday – 8 am to 5 pm EST.

Placing Orders
You can place your orders with PDQ Manufacturing using the email below:
Email: orders@pdqlocks.com

Product and Technical Support
PDQ Mechanical: 833-2-PDQTEC (833-273-7832) or techsupport@pdqlocks.com.

pdqSMART: 866-874-3662 or smartsupport@pdqlocks.com.
Monday through Friday – 8 am to 5 pm EST.

Quotation and Cross Reference Requests
PDQ provides complete project quotation and Cross Reference services.

Securing Confidence. Opening Possibilities.

Driven by family values and an independent spirit, PDQ has set the industry standard for service, quality and value for over 37 years. Our in-house engineering and manufacturing capabilities give us the flexibility to create innovative, cutting edge products that meet and exceed our customer’s continually-evolving security and safety needs. From architectural hardware to cloud-hosted access management, PDQ prides itself on developing world-class, commercial-grade solutions that reliably deliver the confidence and control you need to effectively manage your business.

Built With Pride And The American Spirit.

Timeline of Growth and Innovations

- 1983: Company Founded Brownstown, PA
- 1989: Designed Grade 1 Cylindrical Locks
- 1991: Designed Mechanical Stand-Alone Card Locks
- 1991: Designed and Launched Grade 1 Mortise Locks
- 1995: Designed and Launched Electrified Mortise and Cylindrical Locks
- 2006: Designed Electronic Stand-Alone Locks
- 2009: International Sales Expansion
- 2012: Awarded US Patent # 9,187,928 - Classroom Intruder Lock with LED
- 2014: Introduced pdqSMART Access Management Solutions
- 2015: Launched pdqSMART-XT Stand-Alone Lock
- 2017: Launched pdqSMART-STP Stand-Alone Lock
- 2018: Launched pdqSMART-XLS Networked Access Control
- 2019: New Corporate HQ and Manufacturing Facility in Lancaster, PA
- 2020: Introduced pdqSMART Interconnected Lock
- 2020: Designed and Launched Electrified Mortise and Cylindrical Locks.
- 2020: Designed and Launched Grade 1 Mortise Locks
- 2020: Designed and Launched Grade 1 6EW Exit Device Trim.
- 2020: Designed and Launched Interconnected Lock

Headquarters and Manufacturing

World Class Manufacturing and Design

- 80,000 Square Foot Facility
- Domestic Engineering, Design, and Product Development
- On-site Tool and Die Shop
- Intertek Certified Testing Facility (Continuous Process)
- Lean Manufacturing
- Six Sigma Process
- Value Stream Mapping
- Replenishment Flow Racks/Linear Assembly Line and Cells
Lancaster, Pennsylvania, USA
PDQ has a national team of experienced Architectural Hardware Consultants on staff to provide the architectural and design community with comprehensive consulting and design services surrounding architectural hardware and access control solutions.

**Specification Writing on Behalf of Distributor Partners and Customers**

- Email PDQ door schedules and plans
- Division 8 Door Hardware Specification Writing
- Division 28 Electronic Safety and Security Specification Writing
- Prepare detailed, non-proprietary, open and competitive hardware specifications and door schedules
- Hardware budget preparation
- Prepare catalog cuts for included products
- BIM — flexible Revit models with hardware set families

**Consulting and Design Services**

- Value engineering
- Meet with design professional and/or owner to discuss project requirements
- Assist in design development
- Consult on necessary building codes to ensure compliance with fire, life safety and accessibility requirements
- Review building programming, product options and potential conflicts with security issues
- Assistance in developing keying schedule
- Security and access control analysis, collaboration, and upgrade recommendations

**Project Support**

- Technical support
- Submittal/shop drawing/hardware schedule review
- Provide access control/electrified opening floor plan mark-up
- Assist with product substitution requests, application and product questions/RFI’s and the value engineering process
- Response to RFI’s, owner comments, and comments from other entities
- Participate in owner meetings
- Conduct job site reviews, pre-installation meetings, and post-installation inspections
- Development of a punch list during contract administration

Simple, Secure, Convenient Access Control

Lock and unlock with a smartphone
Smartphones have become the new keys. Say good-bye to the cost of replacing lost keys.

Affordable
No hard wiring, quick and easy installation, plug and play.

Operate locks your way
Life is about choices and locks should be too. With smartphone, RFID, PIN code, smartwatch, smart remote, and key, unlocking is super-easy and convenient.

Scheduling access makes your life easy and convenient
pdqSMART is perfect for scheduling access for regular visitors like the cleaning service, maintenance crew and even the mother-in-law.

Easily track who comes and goes
The app displays all activity including detailed information about who’s coming and going, both on your smartphone and on the web portal.

Safe and secure – peace of mind
We’ve got you covered with commercial grade locks combined with AES 128 Encryption w/Cipher Block Chaining to keep your business protected from hackers and intruders.

Operate remotely
Control access anywhere, anytime, 24/7. Whether you’re in the office or halfway around the world, keep your property or business running smoothly.

Your lock keeps getting smarter...it’s future-proofed
With over-the-air updates, pdqSMART keeps your lock on the leading edge adding new features and capabilities, and it’s all for free.

Push notifications instantly give you feedback on lock activity
Push notifications let you know who entered the office after hours.

Perfect for retrofits
It’s quick and easy to upgrade existing mechanical locks to key-free access.
Stand-Alone Smart Locks

Wireless, mobile-enabled stand-alone smart lock that’s perfect for non-networked applications, where local door management is preferred. Offers the added security and convenience of access control without the cost and complexity of a fully networked system.

Networked Access Control Expanded Credentials

Wireless, mobile-enabled, real time, networked access control that delivers the ultimate in operational convenience and flexibility. Perfect for multi-family, multi-tenant, commercial business and more.

Networked Access Control Standard Credentials

Wireless, mobile-enabled, real time, networked access control for the minimalist where convenience takes a back seat to functionality. Perfect for commercial business, off-campus housing and more.
Typical Applications

- Offices/Coworking Spaces
- Retail Space
- Manufacturing
- Warehouses / Distribution Centers
- Mix-used Commercial
- Medical / Dental Clinics
- Healthcare
- Houses of Worship
- Assisted Living
- Airports and Transit Centers
- K-12 / Higher Ed
- Institutional
- Primary Residences
- Vacation Homes
- Airbnb / VRBO / Rental Properties

Extra Heavy Duty Mortise Lock

Designed to Over-Perform

Tested to 11 million cycles and still counting! That's how PDQ backs up its claim to manufacture some of the toughest hardware in the market. Our mortise locks are built to withstand the rigors of daily use without fail, keeping people and their assets safe while delivering consistent reliable performance. Easy to install, and simple to repair and maintain. That means fewer callbacks for you and total safety and security for your customers.

# Extra Heavy Duty Mortise Lock

## Grade 1

**Top Performer in the Industry. Lifetime Warranty**

- Versatile — Single cam for all locking functions
- Available in multiple escutcheon widths

## Product Specifications

| FOR DOORS: | • 1-3/4” standard, 2” and 2-1/4” special order from factory. |
| BACKSET: | • 2-3/4” |
| CASE: | • 12-gauge cold rolled steel mechanism • Dichromated for corrosion resistance |
| ARMOR FRONT: | • Beveled 1/8” in 2” • 625(US26) & 630 (US32D) use stainless steel as base material, all other finishes use stainless steel or brass as base material |
| STRIKE: | • Handed Curved Lip Strike • Strike is not handed • 625(US26) & 630 (US32D) use stainless steel as base material, all other finishes use stainless steel or brass as base material |
| LATCHBOLT: | • 3/4” Throw • Investment Cast Stainless Steel • Anti-friction |
| DEADBOLT: | • 1” Throw • Investment Cast Stainless Steel |
| HAND: | • Most functions field reversible. Specify handing for strikes, consult factory for details |
| TRIM: | • F trim- forged brass Levers, escutcheons and turns. • J Standard and J Wide Trim - stainless steel escutcheon and Levers, PHL, MEM, HOU, MIA and BSN are solid Levers LAX, ORL, DAL and CHI are tube Levers. |
| ROSES: | • Round and Square. |
| KEYING: | • Keyed to your needs, Keys, keyway, SFIC core, LFIC Schlage only, cylinder and keying information on pages 36-37. |
| FINISHES: | • F trim - 626 (US26D) J Standard and J Wide Trim - 605 (US3), 606 (US4), 612 (US10), 613 (US10B), 622 Flat Black, 629 (US32), 630 (US32D) • Antimicrobial Coating available on 626 (US26D) & 630 (US32D) for F, J, and J Wide Trim. |
| COUNTRY OF ORIGIN: | • Assembled in the U.S.A. with U.S. and foreign material. Meets requirements of the Buy American Act. |
| WARRANTY: | • Lifetime Limited Warranty |

## Electrified Options:

- Motorized Locking/Unlocking (Fail Secure/Fail Safe)
- Input voltage 12/24V both AC and DC
- Request To Exit
- Latchbolt Monitor

## Listings and Certifications

**CERTIFICATIONS, LISTINGS, COMPLIANCES:**

- UL/CUL 10C listed for 3 hrs, for single doors up to 4’0” x 8’0”
- Certified to ANSI/BHMA 156.13 Operational Grade 1 and Security Grade 1
- Approved for Florida HVHZ (High Velocity Hurricane Zone). PDQ Product Approval: FL 21376. Design load rating: ± 70.0 PSF for single door (3’ x 7’)
- Complies with ADA (Americans with Disabilities Act) and ICC/ANSI 117.1 for Accessible and Usable Buildings

### Finishes

- 605 (US3) Bright Brass
- 606 (US4) Satin Brass
- 612 (US10) Satin Bronze
- 613 (US10B) Oil Rubbed Bronze
- 622 (US19) Flat Black
- 626* (US26D) Satin Chromium
- 629 (US32) Bright Stainless Steel
- 630 (US32D) Satin Stainless Steel

*F-Trim Only
Operational and Security Grade 1

- 12 ga. Heavy duty steel case
- Single cam for all locking functions
- Independent single retractor hub
- Four compression springs.
- Lock body designed for ANSI/BHMA 156.115 mortise lock door prep
- Stainless steel stop works
- Stainless steel armor plate
- Most functions accommodate field reversible handing
- Stainless steel deadbolt
- Stainless steel latchbolt and anti-friction
- Stainless steel deadlatch

More Duty Than You Can Handle

Most manufacturers’ approach to lock design ends with simply meeting BHMA/ANSI standards but not PDQ. Our philosophy is to step out of the box and develop innovative designs that take our locks to the next level. We don’t just meet the standard, we crush it. Our design doctrine delivers the confidence that locks are built to last, whether the application calls for resistance to high abuse or to millions of cycles of operation without any degradation in performance.

**Applications**
High traffic doors, areas subject to severe abuse, K-12, higher education, Healthcare, public buildings and retro-fit applications. — pages 23, 24

**Applications**
Stairwell towers, tenant spaces, pharmacies, computer rooms and high security areas. — page 36

**Applications**
pdqSMART wireless IoT access management locks complete the offering by delivering all access control system hardware components required at the door in a single integrated design. — page 11

**XGT/GT135LED**
School Security Solution

**SX**
Ball Knob

**Applications**
In K-12 and higher education, indicators are part of the overall security plan. The GT135LED Classroom Intruder lock is designed to allow a staff member to use the inside cylinder to lock the outside of the door. The Intruder function eliminates the need to open the door to check for a locked lever. Simply press the button on the lock and if the red LED lights up the outside lever in locked and secure. If the LED does not light up, the outside lever is unlocked. — page 25

**Applications**
High traffic areas, Healthcare and commercial buildings. — page 27

- Vandal resistant heavy duty cast levers
- Anti-rotation through bolts at 6 and 12 o’clock
- Cast alloy chassis
- Thread lock patch standard on assembly and mounting fasteners keeps the lock body intact in the most challenging high use installations.
- Heavy 13 gauge steel anti rotation plate is keyed to the chassis in 3 locations to resist the most extreme and abusive situations.
- Oversize stainless steel locking tip and billet steel drives torque rating
- XGT Exclusive: Cast stainless steel spindle yields over 3,000 in-lbs lever torque resistance. No clutching or free wheeling necessary!
- XGT/GT SERIES

### Product Specifications

**FOR DOORS:**
- 1-3/4” to 2-1/4” thick
- Preset for 1-3/4” door

**APPLICATION:**
- Secure installation using a through bolting process

**DOOR PREP:**
- Standard ANSI/BHMA A156.115 (161 plus through bolt holes) for Cylindrical Locks

**BACKSET:**
- 2-3/4” Standard, 3-3/4” and 5” Optional (Ordered from factory only)

**CHASSIS:**
- Heavy duty pressure cast, investment cast and stainless steel mechanism. Billet Steel spindles for locking functions

**FRONT:**
- 2-1/4” x 1-1/8”
- Stainless Steel or Wrought Brass
- Beveled 1/8” in 2”

**STRIKE:**
- ASA standard
- T-Strike or Full Lip Strike optional
- Stainless Steel or Wrought Brass

**ROSE:**
- 3-3/8” DIA Wrought

**LATCHBOLT:**
- 9/16” Throw Deadlocking
- Anti-friction

**HAND:**
- Non-handed

**TRIM:**
- Solid diecast PHL, BSN or MIA Levers
- 41° Lever Rotation Standard with 2-3/4” backset
- Wrought Brass Roses, Concealed Screws
- 65° Lever Rotation Standard with 3/4” latch for double doors (Ordered from factory only)
- All 3-3/4” and 5” backsets (Ordered from factory only)

**KEYING:**
- Keyed to your needs, Keys, keyway, SFIC core, LFIC Schlage only, cylinder and keying information on pages 36-37.

**FINISHES:**
- 605 (US3), 606 (US4), 612 (US10), 613 (US10B), 619 (US15), 622 Flat Black, 625 (US26), 626 (US26D)
- Optional Antimicrobial Coating 626 (USD26D) only

**CASE QUANTITY:**
- 6 locksets

**COUNTRY OF ORIGIN:**
- Proudly Assembled in the U.S.A. with U.S. and foreign material. Meets requirements of the Buy American Act

**WARRANTY:**
- Lifetime Limited Warranty

**Electrified Options:**
- Electronic Locking/Unlocking (Fail Secure/Fail Safe)
- Request To Exit
- Input voltage 12/24V both AC and DC

---

### Listings and Certifications

**CERTIFICATIONS, LISTINGS, COMPLIANCES:**

YOUR SCHOOL IS IN LOCKDOWN.
ARE YOUR KIDS SAFE?

KNOW FOR CERTAIN THAT
YOUR CLASSROOM IS SECURE

Our easy-to-read LED indicator
confirms the door is locked

CLASSROOM INTRUDER XGT/GT 135LED

www.pdqlocks.com
GRADE 1
DESIGN AND MANUFACTURING IN THE USA

School Security Solutions

Red LED Indicator Confirms the Door is Locked

GT 135 LED Classroom Intruder Cylindrical Lock is designed to allow a staff member to use the inside cylinder to lock the outside of the door, without compromising safety to the occupants in the room. But how does a staff member know if the outside lever is locked?

Until now, it required opening the door and checking the lever. PDQ’s 135 LED Classroom Intruder function eliminates the need to open the door. Simply press the button on the lock, and...if the Red LED lights up, the outside lever is locked and secure. If the Red LED does not light up, this indicates the outside lever is not locked and secure.

To Check the Security of the Outside Lever, Press the Button.

Press the Button. If the RED LED Lights Up, that Confirms the Outside Lever is Locked and Secure.

Press the Button. If the RED LED does not Light Up, that Indicates the Outside Lever is Unlocked

Classroom Intruder

Features

• Complies with California Education Code (Functions GT135, GT135LED, GT145)
• Red LED (Light Emitting Diode) outside lever status indicator.
• Pushing the button located on the rose of the inside lock, Red LED illuminates indicating the outside lever is locked.
• Offered with cylinder housings compatible with Small Format Inter-changeable cores, LFIC Schlage® only.
• Large Format Inter-changeable cores only available with PHL lever.
• Keying options available, compatible with most key systems.
• Battery life rating: 10 years*
• Battery type: CR1220
• Patented (US Patent #9,187,928)

Built to Last in the Tough Classroom Environment

• Factory tested to over 2 million cycles (2X the ANSI/BHMA Grade 1 std)
• Lever torque tested to 2,000 in-lbs (Nearly 3X the ANSI/BHMA Grade 1 std)

Product Specifications

FOR DOORS: • For doors 1-3/8” (35mm) to 1-3/4” (44mm) thick standard
BACKSET: • 2-3/4” (70mm) standard. Optional: 2-3/8” (60mm)
STRIKE: • “Full Lip” Strike — 1-5/8” x 2-1/4” x 3/32” Standard
ROSE: • Round Rose: 2-3/8” DIA
• Square Rose: 2-9/16”
DOOR PREP: • ANSI Standard 161 Door Prep • 160 door prep optional
HAND: • Non-handed except Memphis and Orlando.
TRIM: • Stainless Steel Levers and Roses • Round and Square Rose
WARRANTY: • Five (5) year limited warranty

Listings And Certifications

CERTIFICATIONS, LISTINGS, COMPLIANCES: • Complies with ADA (Americans with Disabilities Act) and ICC/ANSI 117.1 for Accessible and Usable Buildings.
Flexible Design Accommodates Multiple Voltages

- Universal input voltage: 12/24V both AC and DC, out-of-the-box
- FAIL SECURE/FAIL SAFE is field selectable
- Get the job done right on the first visit
- MR199A Electrified Storeroom
- MR200 Electrified Institutional

Features

- Universal input voltage, auto-detects voltage for installation flexibility.
- Motorized locking/unlocking.
- **FAIL SECURE** (Factory Default) – Outside trim is UNLOCKED when power is ON, and LOCKED when power is OFF. Lockset will lock in the event of a power failure.
- **FAIL SAFE** – Outside trim is LOCKED when power is ON, and UNLOCKED when power is OFF. Lockset will unlock in the event of a power failure.
- Built around PDQ’s world class MR series mortise lock chassis platform.
- Meets requirements of the Buy American Act.
- SMARTSENSE™ control board automatically accepts AC or DC input voltage.
- Request to exit option.
- Latch bolt monitor option.

Specifications

**PERFORMANCE:**
- Motor drive factory tested to over 1.4 million cycles (1.4 times the ANSI/BHMA Grade 1 std).

**ELECTRICAL SPECIFICATIONS:**
- Input voltage: 12/24V both AC and DC.
- Max in-rush current: 1.0A.
- Standby current:
  - 12VAC: 12mA.
  - 24VAC: 10mA.
  - 12VDC: 3mA.
  - 24VDC: 5mA.

Note: Operating voltage at ± 10% of rated voltage.

**CERTIFICATIONS, LISTINGS, COMPLIANCES:**
- ANSI/UL10C and CAN/ULC-5104 Listed for “Fire Exit Hardware” up to 3 hours for 4’0” x 8’0” maximum single, 8’0” x 8’0” maximum pairs.

Finishes

- 605 (US3) Bright Brass
- 606 (US4) Satin Brass
- 612 (US10) Satin Bronze
- 613 (US10B) Oil Rubbed Bronze
- 622 (US19) Flat Black
- 626* (US26D) Satin Chromium
- 629 (US32) Bright Stainless Steel
- 630 (US32D) Satin Stainless Steel

*F-Trim Only

Applications

Stair tower doors, office doors, classrooms, interlocks, elevator lobby doors, laboratories, computer rooms, cashier stations, hospital equipment rooms and pharmaceutical storage rooms.
GT SERIES

Electrified Cylindrical Lock

BHMA GRADE 1

Flexible Design Accommodates Multiple Voltages

- Universal input voltage: 12/24V both AC and DC
- FAIL SECURE/FAIL SAFE is field selectable
- Get the job done right on the first visit

Features

- Universal input voltage, auto-detects voltage for installation flexibility.
- Motorized locking/unlocking.
  - **FAIL SECURE** (Factory Default) – Outside trim is UNLOCKED when power is ON, and LOCKED when power is OFF. Lockset will lock in the event of a power failure.
  - **FAIL SAFE** – Outside trim is LOCKED when power is ON, and UNLOCKED when power is OFF. Lockset will unlock in the event of a power failure.
- Built around PDQ’s world class GT series cylindrical lock chassis platform.
- Meets requirements of the Buy American Act.
- SMARTSENSE™ control board automatically accepts AC or DC input voltage.

Deadbolts are often paired with a cylindrical lock in commercial office spaces, residential applications and other spaces where there is a greater need for security—and, more specifically, a deadbolt that is more resistant to brute force attack. PDQ deadbolts provide security for a wide range of applications while allowing end users to meet their specific security needs.

**KM**
Heavy Duty Rim Cylinder

Applications
Heavy duty performance. Ideal for commercial, institutional, government, military, hospitality, hospital, multi-family, offices, and retail applications. Typical installations include storerooms, auxiliary entrance locks, communication doors in hotels, and aluminum storefronts. — page 38

**KMS-TP, STS, XLS**

PL SERIES

Heavy Duty Interchangeable Core Padlock

PL-1 SFIC Padlock
Solid brass padlock with hardened steel shackle, accepts standard 6 or 7 pin SFIC lock cylinders (sold separately).

EPIC SERIES
European Profile Interchangeable Core

Features
- PDQ EPIC Series cylinders include a special format interchangeable core to retrofit into standard European Profile applications.
- Solid brass construction
- Can be incorporated into existing master key system
- Large thumbturn for ease of use
- EPIC Cores receive special machining to interface with housing. Specify (EP) designator for these cores (example: I5207EP-A)

PDQLOCKS.COM

ELECTRIFIED MORTISE CYLINDRICALS CYLINDRICALS KEYING DEADBOLTS EXITS DEVICES CLOSERS Hinges ELECTRIFIED ACCESSORIES FLAT GOODS HARDWARE
Exit devices are a critical part of a building’s fire and life safety egress system. PDQ manufactures a full line of exit devices, including rim, vertical rod and mortise for both wide and narrow stile doors. These devices provide the best combination of simplicity, strength, durability, aesthetics, and innovation and are perfect for a vast array of applications.

6200
High-Performance
Wide Stile

Applications
6200 Series Wide Stile Exit Devices incorporate modern push bar styling for heavy traffic applications. These Grade 1 certified devices are put to the ultimate test everyday in K-12, higher education, Healthcare, and government buildings. Other applications include offices, banks, assisted living facilities, retail stores, and other commercial buildings that have constant traffic. — page 46

6202
High-Performance
Narrow Stile

Applications
6202 Series Narrow Stile Exit Devices incorporate contemporary design and durability. The 6202 is built from the 6200 Series but uses a narrow head configuration. — page 47

4200
Commercial Wide Stile

Applications
When low cost and dependability are essential, the 4200 Series is a great choice. A reliable workhorse, the 4200 Series is an economical answer for stock doors and frames. — page 51

6EW
Heavy Duty Trim

Applications
Heavy duty trim with field convertible functions, built to last. Perfect for retrofits, mates with other manufacturer’s devices. — page 49

6EWS-STS, XLS
pdqSMART Trim

Applications
pdqSMART wireless IoT access management exit device trim completes the offering by delivering all access control system hardware component required at the door in a single integrated design. — page 11

9200
Mullions

Applications
Designed for quick removal, the 9200 mullion is ideal in situations where carts, gurneys and large machinery need to pass freely through an opening. Popular applications include Healthcare, industrial manufacturing, and commercial businesses. — page 50
6200 Wide Stile

Universal design, function is determined by trim (rim & vertical rod devices)

Metal chassis cover and end cap

Flush end cap (optional)

Deadlocking feature provides tamper resistance (rim shown)

A variety of electrified options available

Hex key or optional cylinder dogging (Dogging not available with fire labeled devices)

Stainless steel latch bolt with 3/4” throw (rim shown), 5/8” throw (vertical rod devices)

Corrosion resistant plated chassis

High strength rigid, extruded aluminum rail. Available for doors up to 48” in width

ANSI/BHMA Grade 1 certified

6202 Narrow Stile

630F Satin Stainless Steel, full wrap

Features

- Designed for high use and abuse Grade 1 applications.
- Heavy duty cast alloy escutcheon thru-bolts directly into the exit device chassis.
- No exposed set-screws or installation fasteners.
- Designed for use with PDQ’s 6200 series. Rim, Concealed Vertical Rod and Surface Vertical Rod exit devices.
- Lever remains rigid when locked.
- Simple installation.
- Handing is field reversible.
- Lever rotation: 28 degrees.
- Designed and assembled in Lancaster, PA USA.

Decorative Finish Collection

- 689 (US28) Aluminum
4200 SERIES
Commercial Wide Stile

Economical, Reliable Workhorse

- Rim, Surface Vertical Rod
- Compatible with 161 door prep
- Architectural plated finishes available
- 5-Year Warranty

Product Specifications (For all Models Unless Noted)

- CHASSIS: Corrosion resistant plated steel
- RAIL: Heavy gauge steel or stainless steel
- LATCH: Rim (R) – 3/4" throw • Surface Vertical Rod (V) – Top Latch-Pullman with dead latching 5/8" throw
  - Bottom Latch-Pullman with 5/8" throw, held retracted during door swing
- BACKSET: 2-3/4" backset Compatible with 161 prep
- HAND: Device is non-handed
- DOGGING: Hex key dogging standard on panic devices • Dogging not available on fire labeled devices
- MINIMUM STILE WIDTH: 4-1/4" for device (exit only) • Minimum stile requirements with trim varies by trim type
- DOOR THICKNESS: 1-3/4" standard
- DOOR WIDTH: Standard for 3 ft doors. "A" size devices available for doors up to 4' • Consult door width chart to determine correct device for your application
- FINISHES: 605 – Polished Brass, 626 – Satin Chrome, 630 – Satin Stainless Steel, 689 – Aluminum, 695 – Duro Bronze, 696 – Gold • Optional Anti Microbial Coating available on 626 and 630 finishes only
- FASTENERS: Includes machine screws and wood screws • sex nuts and bolts (SNB) supplied with all Fire Listed devices
- VERTICAL RODS: SVR – 7' doors standard. Extension rods available for doors up to 10'
- WARRANTY: Five (5) year limited warranty

Flexible Design Accommodates Multiple Voltages

6EW199A

Job and application conditions are always a big unknown. The 6EW 199A makes your job easy because you come prepared to get the job done right the first time. No need for a return trip because you have all the parts you need.

- Universal input voltage: 12/24V both AC and DC, out-of-the box.
- Field Selectable from FAIL SECURE/FAIL SAFE.

Features

- Universal input voltage, auto-detects voltage for installation flexibility.
- Available in 6200 EW Series Wide Stile Escutcheon Trim
- Motorized locking/unlocking. FAIL SECURE – Outside trim is UNLOCKED when power is ON, and LOCKED when power is OFF. Lockset will lock in the event of a power failure. FAIL SAFE – Outside trim is LOCKED when power is ON, and UNLOCKED when power is OFF. Lockset will unlock in the event of a power failure.
- Field changeable from FAIL Secure to FAIL SAFE.
- Designed for AC or DC input voltage. No need to select voltage when specifying or ordering.
- Designed for use with PDQ Rim, Surface Vertical Rod and Concealed Vertical Rod Exit Devices only. Not available with Mortise Exit Devices.
- Designed and assembled by PDQ in the USA

Specifications

- Input voltage: 12/24V both AC and DC.
- Max In-rush current: 1.0A.
- Standby current:
  - 12VAC: 12mA.
  - 24VAC: 10mA.
  - 12VDC: 3mA.
  - 24VDC: 4mA.
- Note: Operating voltage at ± 10% of rated voltage.

Recommended Power Supply

- PDQ Model # 81440:
  - Input: 120VAC, .9A, 50/60Hz 240VAC, .6A, 50/60Hz
  - Output: 24VDC, 2A, filtered and regulated.
- Rated for simultaneous operation of 2 each trim assys.
- Power Supply Requirements:
  - AC/DC Output Voltage – 1.0A min (filtered and regulated).
- 12-24VDC @ 1.0A initial surge (1 sec), 5mA standby after 30 sec.
- AC Output Voltage.
- 12-24VAC (60Hz) @ 1.0A initial surge (1 sec), 15mA standby after 30 sec.
Integration with Building Access Control Systems

Request to Exit - SS or SS2
The Request to Exit (Signal Switch) feature is used to signal the use of an opening. This device is equipped with one internal SPDT switch which monitors the push pad. The device can be connected to a security console, or may be used as a single door alarm when used with a horn and power supply.

Features
- SS – Single Request to Exit Switch
- SS2 – Combines Signal Switch and Request to Exit functions
- Electrical rating: Up to 2.0 AMPS @ 24VDC

Latch Bolt Monitor
The LM feature is used to signal the use of an opening. This device is equipped with one internal SPDT switch which monitors the latch bolt. The device can be connected to a security console, or may be used as a single door alarm when used with a horn and/or light, and power supply.

Features
- Electrical rating: Standard – 2 Amp maximum @ 24VDC
- Low Current (LC) - below 50 Milli-amps @ 24VDC

Popular SS Application
Unauthorized use of this opening will activate the local horn/light. The key switch permits inhibiting this system for authorized entry.
**Battery Powered Alarm**

- Microprocessor-based alarm board
- When armed, alarm sounds immediately upon rail depression
- Free entry allowed if outside trim being used
- All devices have tamper resistant latching (deadlocking latchbolt)
- Battery powered – 9 Volt Alkaline Battery Required (Battery not included)
- Alarm volume 103 dB @ 8 ft
- LED Indicator provides visible verification of device status: Armed, Disarmed, Low Battery, or Service needed
- Field adjustable Alarm time: 15, 30, 60, or 120 seconds
- Door widths: 36” to 48”
- UL Listed
- Output terminals accommodate connection to a remote security console
- Available in Right Hand Reverse/Left Hand Reverse
- Tamper resistant switch for end cap

**Features**

- Supplied with Collar.
- Mortise Cylinder not included.
- 629544 for 22” touch pad
- 629644 for 24” touch pad
- Cannot be added to Fire Labeled devices.

**Cylinder Dogging Kits**

**Features**

- Supplied with Collar.
- Mortise Cylinder not included.
- 629544 for 22” touch pad
- 629644 for 24” touch pad
- Cannot be added to Fire Labeled devices.
MLR Series Motorized Latch Retraction

- Ultra quiet operation
- Very low power requirements
- For use with 6200 and 6202 Series Exit Devices, panic and fire labeled

Features

- Unique motor drive retracts push pad.
- Dual operation - maintained or momentary operation.
- Supports remote signaled electric dogging.
- Low power requirements. Interfaces with PDQ’s 81440 2A 24VDC Filtered/Regulated Power Supply, and EL Series Electrified Power Transfer Hinges
- Suitable for pairing with Low Energy Power Operators
- Non-polarized leads
- On-board diagnostic LED lights
- UL Listed

81550K-MDT Retrofit Kit

- Designed to field retrofit 6200 and 6202 series exit devices
- Includes motor drive module, connectors and fasteners

Electrical Specifications

Note: Operating voltage at ± 10% of rated voltage.

- Input voltage: 24VDC
- Rated in-rush current: 1.0A.
- Operational in-rush current: .85A.
- Continuous current, electric dogging: .4A.

Performance

- Motor drive factory tested to over 500,000 cycles (Over 2 times the ANSI/BHMA Standard)

Finishes

- 605 (US3) Bright Brass
- 806 (US4) Satin Brass
- 613 (US10B) Oil Rubbed Bronze
- 622 (US19) Flat Black
- 626 (US26D) Satin Chromium
- 630 (US32D) Satin Stainless Steel
- 630F Satin Stainless Steel Full Wrap
Making Door Control Easy

PDQ offers a comprehensive line of door closers designed and manufactured to ensure superior performance and reliability. They offer the perfect combination of reliability, appearance, and durability. With a wide range of models and features, PDQ has a door closer for most applications.

7100 — The 7100 Series is PDQ's top of line heavy duty closer. It is designed for high use, high abuse institutional applications such as K-12, higher education and government buildings. 7100 Series closers are ideal for retrofit and new construction applications where strength and durability are required. — page 59

5500 — Designed for maximum versatility, the 5500 Series sports a full cover and can be used for both commercial and institutional applications. This rugged workhorse is perfect for high traffic applications including federal/state buildings, assisted living facilities, hospitality, retail, religious, and medical buildings for example. — page 60

5300 (Slim cover) — The aesthetically pleasing 5300 Series comes standard with a slim line cover and offers the ideal combination of appearance, reliability, and durability for today's market. This rugged closer is perfect for high traffic applications such as healthcare, hospitality, government, assisted living, retail, and religious facilities. — page 60

5100 — 5100 Series Door Closer is a heavy duty multi-feature closer that is perfect for high use, high abuse applications such as K-12, higher education, and government buildings. The 5100's compact design is ideal for interior door applications where it's distinctive lines harmonize with most decors. — page 61

3100 — Designed for medium-light duty applications, the 3100 Series is ideal for aluminum storefronts, interior offices, multi family, hospitality and many other applications. The 3100 combines dependable operation, low maintenance and stylish look. — page 62

Protect Walls and Valuable Equipment
Perfect for Hotel Room Entry Doors

- Pivot Stop (PS) is designed to serve as a medium-duty door stop for situations where a door stop or overhead stop is not practical.
- Available in Regular and Top Jamb mounting.
- Uses backcheck to slow the door and a stop integrated into the closer arm to limit the travel of the door (integral stop).
- Limits the travel of the door to a specific, templated angle.
- Templating is available for opening angles from 85-110 degrees in 5-degree increments.
- Available for use with 5500, 5300, 5100, and 3100 Series closers.
- Not available with hold open.

PDQ’s SCS Series Spring Cushion Stop helps reduce wear and tear on the opening. As the door begins moving through backcheck to its maximum opening angle, the stop acts as a shock absorber, dampening the impact forces.

Features

• The unit is an add-on kit that can be included as an option on DS/DSHO arms.
• It also can be installed on existing DS/DSHO arm applications using the existing threaded hole for the bumper stop and one of the mounting screw holes.
• The spring cushion kit is available in two spring sizes, allowing it to be tailored to provide more effective cushioning for specific door widths.
• Designed to be self-aligning, the unit works with any door that incorporates a PDQ DS/DSHO arm with a cushioned bumper (won’t fit with old style metal bumper).
• Manufactured from investment cast stainless steel for corrosion resistance and durability
• The 99032/99033 does not alter or decrease the strength of the DS/DSHO arm.
• Hand is determined in the field and reversible for LH and RH doors

Specifications

HANDING: • Field Reversible
DOOR SIZES: • SCS-1 for 3'0" X 8'0" doors
• SCS-2 for 4'0" X 8'0" doors
FINISHES: • 605 (US3) – Bright Brass (PVD), 613 (US10B) – Oil Rubbed Bronze (PVD), 630 (US32D) – Satin Stainless Steel
Note: PVD (Physical Vapor Deposition) coated finishes offer outstanding resistance to wear, durability and corrosion.
WARRANTY: • One (1) year limited warranty

PDQ’s SCS Series Spring Cushion Stop helps reduce wear and tear on the opening. As the door begins moving through backcheck to its maximum opening angle, the stop acts as a shock absorber, dampening the impact forces.

Reduce Door Wear and Tear

• Unique self-aligning screws
• Manufactured from anti-corrosive stainless steel
• Two spring strengths. Specific designs for 3’ and 4’ door.
Modern Styling. Space Saving.
Hilton Hotels Approved.

PDQ's stainless steel sliding track systems, also referred to as Barn Door Hardware, offer the ideal solution when modern styling and space saving is demanded. Perfect for hospitality, offices, multi-family or mixed used facilities.

**Features:**
- Door type: Wood, 1-3/4" thick.
- Max door weight: 220 lbs
- Grade 304 Stainless Steel components
- Nylon coated rollers
- Finish: 630 Satin Stainless Steel

**Configurations:**
- Single
- Bi-parting

**Installation:**
- Side Wall Mount (only)

**Standard Kit Includes:**
- 1 ea Track (specify length)
- 2 ea Track Stops
- 2 ea Top Mount Roller Hangers with Anti-jump pins
- 1 ea Floor Guide
- Installation fasteners

**Performance:**
- Meets ANSI 156.14 Grade 1 Standard

**Soft Close** Upgrade to PDQ’s innovative WALLSAVER™ Soft Close, designed to gently bring the door to the stopped position. When the door is set in motion then captured by Soft Close, the dampened closing cycle minimizes the effect of impact loading to the wall brackets. The sleek design of the Soft Close mechanism is integrated into the track and replaces the need for rigid stops. Soft Close also maintains the door in the stopped position, preventing unwanted door creep.

Features

NON-REMOVABLE PIN (NRP):
- Included with all 2 and 4 ball bearing, std and heavy weight hinges.
- Groove in pin accepts set screw in center barrel.
- Set screw secured using a 3/32” hex (allen) wrench and is not accessible when door is closed.

TYPE:
- Full Mortise. Hinge leaves are mortised into the door and frame.

SWAGED:
- Standard.
- Provides 1/16” of clearance between both leaves when the hinge is in the closed position.

Product Specifications

MATERIALS:
- Steel — Applications: Interior doors non-corrosive environments.
- Stainless Steel — Applications: Exterior doors corrosive environments

PACKAGING:
- Qty of Hinges Per Individual Carton:
  - 3ea for Plain, Standard Weight and Heavy Weight
  - 3ea for Spring Hinges
  - 1ea for Electrified Hinges
- Qty of Hinges Per Master Carton:
  - 48ea for Plain, Standard Weight and Heavy Weight Hinges

FASTENERS:
- Steel (ST), Stainless steel (SS)

Warranty

• Five (5) year Limited Warranty

Electronic Access Control Options:

• Power Transfer Standard or Heavy Weight
• Non Load Bearing
• Install on center hinge location of the door

Listings and Certifications

• Conforms with the requirements of NFPA 80-2016, Section 6.4.3.1.
• Meets ANSI/BHMA A156.1-2006:
  - Grade 1, Heavy Weight Ball Bearing
  - Grade 2, Standard Weight Ball Bearing
  - Grade 3, Plain Bearing (PL) 350,000 cycles
• UL 10C Listed:
  - SH Series Spring Hinges
  - EL Series Electrified Hinges

www.pdqlocks.com
Power Transfer / Electrical Monitoring Hinges

Features

- UL Fire Listed for use with electrified mortise or cylindrical locks, exit devices with electric latch retraction, electric strikes, locks or exit devices with monitoring or request to exit switches
- 2, 4, 6, and 10 wires
- Monitor available
- Non Load Bearing (Install in center hinge prep on door frame)

Cylindrical and Mortise Lock Applications

| 85001 ELECTRIC STRIKE: | • Designed for use with all PDQ Grade 1 and Grade 2 Cylindrical Locks |
| 85003 ELECTRIC STRIKE: | • Designed for use with all PDQ MR Series Mortise Locks WITHOUT Deadbolt |

Features and Specifications

**FEATURES:**
- Input voltage: 12-24 VDC Field Selectable
- Field changeable from FAIL SECURE to FAIL SAFE
- Factory tested to 1,000,000 cycle

**CURRENT:**
- 0.28A @ 12V VDC
- 0.14A @ 24 VDC

**FINISH:**
- 630 (US32D) Satin Stainless Steel

PDQ

Key Switches

- Rated for simultaneous operation of 2 each MLR Motorized Latch Retraction devices or 2 each 6EW199A FAIL SECURE/FAIL SAFE trim assemblies.
- Filtered/Regulated 24VDC
- 2 Amps Load Capacity
- Class 2 Rated Outputs
- Overload, Over Voltage and Short Circuit Protection
- Automatically Accepts 120VAC or 240VAC Input Without Requiring to Move Jumpers or Set Dip Switches
- Controls Fail Safe or Fail Secure Locking Devices
- Interface Relay Isolates Locking Device Current from Control Switch
- Auxiliary 24VDC Constant Voltage Output for Powering Stand Alone Devices, Such as, Keypads, Motion Detectors and Status Indicators
- Surge Suppression on Fail Safe and Fail Secure Outputs
- UL Listed and Tested to 294 Standard for Access Control System Units

Push Buttons

- Maintained or Momentary
- Stainless Steel Faceplate

Features

- Maintained or Momentary
- Can be Keyed Into Master Key System
- Stainless Steel Faceplate

SKILCRAFT/PDQ Hardware Assembled by the Blind

PDQ is proud to be partnered with the US AbilityOne Program and local nonprofit agencies to facilitate the employment of people who are blind or have significant other disabilities in the production of door hardware. Under the SKILCRAFT brand, blind US citizens at nonprofits across the US assemble door hardware using PDQ components for use on Federal construction projects.

Federal Law Requires the Use SKILCRAFT/PDQ Hardware Products on Federally Funded Projects

- Federal Law (Javits-Wagner-O’Day Act 41 U.S.C. & et seq) requires all Federal Agencies to purchase Supplies and Services from nonprofits who employ people who are blind or have significant other disabilities.
- Compliance with FAR 52.208-9 – Contractor Use of Mandatory Sources of Supply and Services means SKILCRAFT/PDQ hardware products designated as mandatory use items are specified for new construction/major renovations and maintenance of all federally funded buildings.
- Only AbilityOne hardware products which carry the SKILCRAFT/PDQ co-brand can be used on federally funded projects and have no equal for federal procurement and no substitutions allowed.

Support the Blind and Physically Disabled Veterans.

PDQ Manufacturing Limited Warranty

PDQ Manufacturing ("PDQ") warrants that, during the applicable warranty period set forth in the chart to the left, its products will be free from defects in workmanship and materials under normal use and service conditions. If a product or a component part thereof is found to be defective, PDQ will, at its sole discretion, either repair or replace such defective item. If PDQ no longer manufactures the particular product or component, PDQ reserves the right to substitute an item which PDQ deems to be comparable or superior in its place.

A warranty claim must be initiated by calling PDQ's toll-free number at 800-441-9692. A brief description of the defect will be required, and further instructions for returning the product will be given. The provision of return instructions is not a guarantee that the product will be covered under this warranty.

This warranty does not cover:

- Defects or damage arising from improper installation; lack of or improper maintenance; improper storage, shipping or handling; corrosion; erosion; ordinary wear and tear; misuse or abuse; or accident.
- Products which have been modified in any way, regardless of whether such modification caused or contributed to the alleged defect.
- The protective coatings and finishes applied to the surface of the product (wear or tarnishing of such finishes is considered "ordinary wear and tear").
- Labor costs, including the costs of removing and reinstalling the product.
- Shipping charges incurred in returning the product to PDQ.
- This Limited Warranty does not apply to ANSI A156.2 Grade 2 Key-In-Lever product installed on Educational Facilities.

All products returned to PDQ will be inspected to verify that (1) the alleged defect does exist, and (2) none of the exclusionary conditions listed above (abuse, corrosion, modification, etc.) is present. Products deemed not to be “in warranty” will be returned to the customer at the customer’s expense.

THIS WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, EXPRESS AND IMPLIED, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

PDQ’s maximum liability hereunder is limited to the original purchase price of the product. PDQ shall not be liable for any incidental, consequential, indirect, special, exemplary or punitive damages, whether based on contract, warranty, tort (including strict liability and negligence), patent infringement or any other theory of liability, even if advised of the possibility of such damages.

No agent, sales representative or dealer has the authority to increase or alter PDQ’s obligations under this warranty.
